## MEDIAN PRICE

The price in the very middle of a data set, with exactly half of the houses priced for less and half priced for more. It is not the average price. Median prices exclude distressed sales – foreclosures and short sales – because these are not normally arms-length transactions. “Sales” include everything.

Look at this list of numbers: 5,6,7,8,9,10,11,12,13,14,15,100,100. The median price – the middle one – is 11. The average is 24. Median price removes the impact of outliers – whether high or low.

If 50% of sales take place above \$100,000 and 50% below then the median will be \$100,000. When the percentage increases to 60% **above** \$100,000, it means that more sales are occurring at **higher** prices and so the median price **increases**.

## DTO

Days to Offer. The number of days a property is listed before an accepted offer is received. A more reliable guide to activity than DOM – Days on Market – as a number of factors can affect the timing for the latter.

## MONTHS OF SUPPLY

If 60 properties have sold in the last 6 months that is a rate of 10 per month. If there are currently 20 properties for sale the supply is 20 divided by 10 = 2 months. Because properties sell more quickly in summer months, we use Year to Date (YTD) numbers to even out those fluctuations.

# Essex County Annual Review

— As forecasted in our Fall report, the real estate market in Essex County slowed down a little in the latter months of 2021 following the boom earlier in the year. While inventory was below 2020's depressed levels and less than half the levels of 2019, sales in 2021 were down only 2%, indicating that properties sold very quickly.

## Increase in SFH and Condo Median Price ▲

The median SFH price jumped to \$635,000 in the frenzy of Q2 before easing back to around \$610,000 in the second half of the year. Overall the increase for 2021 was a robust 13.4% to \$608,000. In 2021 only 4 of the 34 cities and towns – Lynn, Methuen, Haverhill and Lawrence – had a median SFH price under \$500,000, while 17 had median prices above \$750,000, with Manchester-by-the-Sea topping the list at \$985,000. The median Condo sale price increased modestly but consistently each quarter, and for the year was up 11% to \$388,000.

## YoY Increases ▲

All towns except Beverly, North Andover, and Saugus (all 9%), Newbury (8%) and Manchester-by-the-Sea (just 1%) saw double-digit SFH median price increases YOY.

## Mortgage Rates ▲

Early 2021 saw a certain level of euphoria with the roll out of vaccines and the opening of economies, but first Delta and then Omicron – not to mention supply chain-induced shortages as we saw on supermarket shelves – caused greater uncertainty as the year progressed. The Fed appeared to many commentators to be taking an overly optimistic view about inflation; its policy reversal late in the year sparked a jump in the crucial 10-year Treasury yield and hence in mortgage rates, which many experts expect to hit 4% this year.

All these factors make forecasting the housing market more hazardous than usual, but the supply demand imbalance can be corrected only by one of two ways: increased supply or reduced demand.

# Essex County

## HOUSING MARKET BY THE NUMBERS

Essex County continues to be an extremely strong sellers' market.

The current active supply is well under 1 month for prices up to \$1.5 million, demonstrating the extremely strong sellers' market in Essex County. Total SFH inventory of 194 homes is more than 60% lower than in 2020.

## HOUSING MARKET BY THE NUMBERS

### SINGLE FAMILY HOME (SFH) INVENTORY

With active inventory dropping even further in 2021, it is perhaps surprising that SFH sales were only slightly lower, indicating that properties are selling extremely quickly. Benefiting from new construction and conversions, Condo sales increased slightly.

SALES	SFH
2021	5,985
2020	6,115
2019	6,348
2018	6,177
2017	6,274
<b>5-Year Avg.</b>	<b>6,180</b>

■ Quarterly Average Inventory

### DAYS TO OFFER – 15 DAYS OR LESS | 2021 VS 2020

#### Single Family Homes

#### Condos

— DTO 15 or less 2021    — DTO 15 or less 2020

The market slowed – but prices did not decline – when the pandemic broke in 2020 and then activity picked up before slowing into the winter. In 2021 the market went crazy in the first few months and then the pace of sales slowed as the year progressed.

## ESSEX COUNTY AND MASSACHUSETTS SFH VS. BOSTON SFH AND CONDOS

From 2008 to 2018 Boston Condo prices kept pace with Boston SFH prices, with both comfortably outperforming Essex County and Massachusetts overall. Since 2018, median SFH prices in Essex and MA have increased sharply, as have Boston SFHs, but the growth in median Boston Condo prices has slowed dramatically.

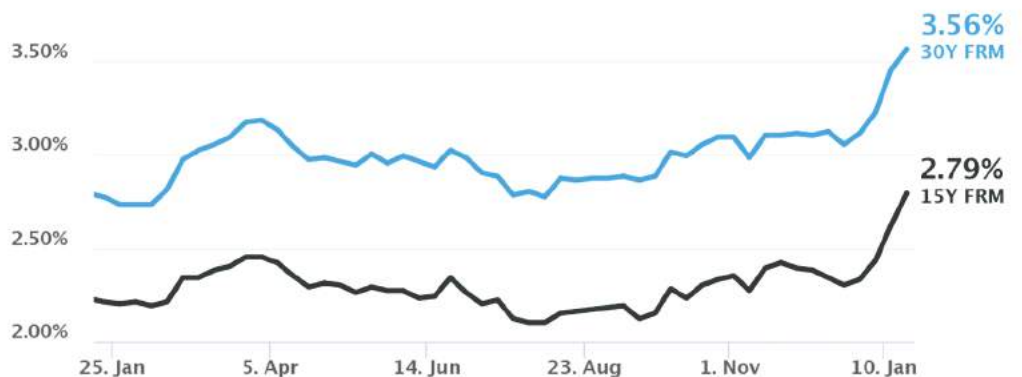

All data is converted to a base of 1.00 in 2008. For example, the Essex County median price in 2008 was \$335,000 and in 2021 it was \$608,000. Using 2008 as 1.00 produces a 2021 value of \$608,000/\$335,000 or 1.81. Similarly, the other values are converted to a base of 1.00 in 2008.

## MORTGAGE RATES FREDDIE MAC | PRIMARY MORTGAGE SURVEY®

### U.S. Weekly Average Mortgage Rates as of 1/20/2022

After fluctuating around 3% for almost all of 2021, rates spiked in early 2022 as the persistency of inflation caused the Federal Reserve to announce the ending of its bond buying program and its plans to increase rates in 2022, both events occurring ahead of prior market expectations.
